“ Dear Granny baby,
I'm swallowing soo hard trying to write this message to you one of my last messages to you. You have been there since day 1 being my best friend, my diary, my po, my mom above mom. You've taught me how to be a lady, how to cook, how the holidays should feel and look as a family. You've shown me the circle of life and how it works because I've been with you every step of your journey from the moment I entered in this thing called life . Granny you helped and prepared for a lot of things but never taught or prepared me for how to live without you. What do I do now? I miss you so so much but I guess God was finally ready for you. I love you to the moon the stars and back.

Forever and always your Jr aka Nae
